

Rygiene vs. Life360

Life360 tells you **where** your kid is — keep it. Rygiene shows you **how they rode** getting there. Many families run both.

Feature	Rygiene	Life360
BUILT FOR YOUNG RIDERS — e-bikes & e-scooters		
Custom speed alerts — you set your rider's max speed	✓	—
Smart speed settings — parking lots, short neighborhood streets, and paths shared with walkers each get their own cap — set by you	✓	—
Custom Slow Zones — mark schools, parks, busy streets where they should ease up	✓	—
Stop Zones — mark the stop signs that matter; Rygiene checks for a real stop ¹	✓	—
Turn IQ — did they ease off before the corner — and how hard did they lean? Measures actual cornering force	✓	—
Intersection Etiquette — easing into main-road crossings vs. blowing through	✓	—
Wrong-way & side-of-road detection — riding against traffic on main roads	✓	—
Distracted Rider — pins the spot on the ride map where the phone came unlocked mid-ride ³	✓	✓
Curfew & after-dark alerts — knows local sunset automatically — plus each kid's own curfew time	✓	—
Ride Highlights — celebrates the good riding, not just the mistakes	✓	—
Watch a ride live — follow the ride as it happens — live speed and safety flags, not just a moving dot	✓	—
Ride Improvement Analysis — a weekly trend of flags per mile — watch the riding improve	✓	—
FAMILY LOCATION BASICS		
Live location map — see where they are right now	✓	✓
Place & missed-arrival alerts — know when they arrive, leave — or <i>don't</i> show up by the time you set	✓	✓
Ride history — look back on past rides	✓	✓
Family sharing — one subscription covers the whole household ²	✓	✓
Low-battery alerts — know before their phone dies	✓	✓
24/7 location history — a timeline of everywhere the phone has been — Rygiene skips this on purpose	—	✓
Time at a place — a "here 40 min" badge right on the live map	✓	✓
CAR & EMERGENCY EXTRAS — built for drivers, not riders		
Crash detection — designed for cars; requires 25+ mph to trigger ⁴	—	✓
SOS & 24/7 emergency dispatch	—	✓
Car driving reports — for teen and adult drivers	—	✓
Driver & household extras — roadside assistance, ID theft & credit monitoring, weather alerts	—	✓

BUILT LIKE A KIDS' APP. Your child's ride location auto-deletes within 21 days · their name and location never appear in a notification · no ad or analytics SDKs touch your child's location · export or delete everything anytime, in-app.

¹ Stop Zones are stop signs you mark in the app — Rygiene checks each pass for a full stop. ² Rygiene co-parents view free on one subscription. ³ Life360 phone-use detection runs during detected car drives (vehicle moving 15+ mph), per Life360 support documentation. Rygiene watches phone use during e-bike and e-scooter rides. ⁴ Life360 support: "Crash Detection has not been tested on motorcycles or scooters." (July 2026.)

They're great at the car years. We're built for the e-bike years. Life360 comparison reflects publicly listed Gold/Platinum membership features and pricing as of July 2026 and may change; Life360 also offers Free and Silver plans that include fewer of the features shown. Life360 is a trademark of Life360, Inc., which is not affiliated with Rygiene. · rygiene.app
